

Dakota Campus Backpack Policy

During the school day, students will only be allowed to use clear, see-through style backpacks. It is unlikely that a student will need to use a backpack during the school day, however, if they need one to carry items between classes, only clear, see-through bags will be permitted. With the move to 1:1 technology, there has been a reduction in the number of textbooks our students have to carry, making it less likely that they will need a bag when going from class to class. Regular, opaque backpacks and mesh backpacks will **not** be permitted.

Some examples of acceptable transparent backpacks that are permitted:

Attendance Concerns: If your student is having difficulties navigating their classes and getting to class on time, please contact their designated assistant principal.

Violations: Students that violate the backpack policy may be issued disciplinary consequences, with the severity increasing with each subsequent infraction.
