

Chippewa Valley Virtual Academy (CVVA) to be offered next school year

Parents looking to enroll their child in a high-quality all virtual education option for the upcoming 2021-2022 school year will have to look no further than CVS. Back by popular demand, the district will offer the Chippewa Valley Virtual Academy (CVVA) for students and families wanting to learn at home. Unlike other virtual options, the CVVA offers our top-ranked curriculum taught by our own highly qualified and caring CVS teachers.

For the 2021-2022 school year, we will offer in-person learning as well as the CVVA for all students K-12 grade. Chippewa Valley students will be automatically scheduled for traditional in-person learning. All students, regardless of their current learning model, must register for CVVA if they are seeking remote learning for the upcoming school year.

Families are asked to review the district website for detailed information regarding the CVVA. It is important that those interested make a commitment as soon as the registration window opens in Parent Portal. Applicants will be placed in the academy based on space and order of enrollment.

For the CVVA, elementary and middle school schedules will reflect a traditional schedule. At the high school level, courses offered will be based on the requests of those enrolling, and if we have enough requests to offer the course. This is the same process we use to schedule our in-person high school courses. Advanced course selections at the secondary level will depend on the number of CVVA student requests we receive. While some hands-on Career and Technical Education (CTE) classes or upper level CTE will not be offered, most will be part of our course offerings, but will only run if we have enough requests to offer the class.

After Spring Break, an enrollment form will be available on the CVVA website for you to complete if you are interested in the CVVA. To prepare for this process, it is required that you have an active Parent Portal account. If you do not have an active account, please use the attached directions to set up your account so you are prepared to enroll for the CVVA once the announcement to register is made.

We ask that parents **carefully consider the CVVA as it is a year-long commitment**. Students in the CVVA will begin virtual classes in September of 2021 and conclude in June of 2022.

For more information regarding the CVVA, visit our [webpage](#).

If you need directions to create a Parent Portal account, go to the [Parent Portal webpage](#).

The enrollment deadline for the CVVA will be May 7, 2021.

Thank you.
